The Story of Dr. Hellmut May

THE STORY OF DR. HELLMUT MAY IS ABOUT TALENT, discipline, athletic commitment, and a bit of luck. It's also about love, caring and living life to the fullest.

As an Olympic figure skater, master coach, businessman, father, grandfather, and husband, Dr Hellmut May has shared his life with many people around him. Spanning more than 8 decades, his life story starts out in Vienna, Austria, and follows his many adventures.

Andrea May, Hellmut's wife and former student, commissioned this film to honour and celebrate the man who has dedicated his life to excellence in sports and has had a profound impact on many young athletes.

Recorded over 2007 and 2008, this video biography was compiled by filmmaker and interviewer Cory Bretz. To see more of his work or to find out how you can have the Movie About You, visit www.youtube.com/heirloomfilms.
